

Project Demo Planning

Date	04July 2026
Team ID	
Project Name	AComprehensive Measure of Well- Being
Maximum Marks	1Mark

ProjectDemoPlanning:

A well-structureddemo plan ensures that the team presents the project effectively, covering all key aspects in a clearand organized manner. This document outlines the plan for demonstrating the project, including the flowof the demo, key features to highlight, and responsibilities of eachteam member.

S. No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project, objectives, and problem statement.	2	Mopuri Ravindra Reddy
2	Dataset & Model Overview	Explain the dataset, preprocessing steps, and machine learning model used	3	Pullabhatla Lalitha Kalyani
3	Live Application	Demonstrate the streamlit application by entering inputs and predicting HDI.	5	Sandra Prem Chand
4	Results & Visualizations	Show prediction results, graphs, and model performance metrics.	3	Hemanath Reddy
5	Conclusions & Future Scope	Summarize the project, discuss future enhancements, and answer questions.	2	Sharukesh Avalapati

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explainwhy HDI prediction is important and define theproject objective.
2	Solution Overview	Describethe dataset, preprocessing, machine learningmodel, and streamlit interface.
3	Live Feature Demonstration	Uploadorenter sample data, predict HDI, and displayvisualizations.
4	Q&A Session	Answerquestions about the project, model, technologies, and future improvements.
